

Walton Hills Economic Development Committee Report

On July 16, 2013 at 11AM, Mayor Kevin Hurst, Economic Development Committee member Council President Denny Linville, and Economic Development Committee Chairman Councilman Paul Rich presented a Proclamation of achievement and appreciation to Mantua Manufacturing located at 7900 Northfield Rd in Walton Hills, Ohio.

Mantua Manufacturing, a stalwart local manufacturing business in Walton Hills since 1960, and one of the largest manufacturing companies in Walton Hills Ohio, recently began a multi-million dollar line to manufacture metal bedding support systems for a customer of theirs, and our Committee and Mayor Hurst wanted to thank them for their commitment to Walton Hills.

After a brief meeting with CEO, Edward Weintraub, President David Jaffe, and VP of Operations and CFO, Jeff Weekly, the members of our delegation present the Proclamation of Achievement and Appreciation to Mantua Manufacturing and were given a guided tour of the new manufacturing line that is supporting this new growth for the Company. We are extremely honored and proud to have a Company like Mantua Manufacturing as part of our community.

Finally, all of the major materials and components consumed on this project are obtained from local and regional sources and Mantua's product is truly 'Made in the USA'.

Mantua Manufacturing also operates in Tampa Florida, Houston Texas, and Stoughton Mass.

Respectfully submitted,

Councilman Paul Rich
