**WALTON  
 HILLS**  
 WORK. PLAY. LIVE.

Dear Neighbors and Friends,

**Standing Behind Our Flag**

We had such a blessed Memorial Day honoring the deceased members of our armed forces as well as giving thanks for our veterans and all the people who are currently serving our country. On this day we started a new program which we are proud to call "Stand Behind the American Flag." All too often it is mistaken that because we as Americans are silent or caught up in our everyday activities that we do not support our flag or do not support other activities of our government or our military. The elected officials of Walton Hills are very proud of our military and support them 100% and stand behind the decisions that they make that keep our nation free. Because we are quiet does not mean that we do not have feelings for the issues that our nation is facing. We trust in our elected officials to do the right thing, but when their actions or decisions become astray and are not focused on the same views that we have, we must stand up and voice our opinions loud and clear and make our feelings known.

The leaders of Walton Hills stand behind the American flag. We do not burn it, we do not step on it, and we do not ignore its history. We are 100% behind the American flag. As you can see in the picture on this page and you will see on our website, we will continue to promote the

American flag and the right of American freedoms that each one of us enjoy.

As we celebrate the 4th of July, let us never forget how blessed we are to live in such a great nation and enjoy all the great gifts that we have. We are a nation of proud people. We are a nation united. Let us never, ever forget that. We stand behind the decisions of our trusted leaders. We stand on the freedoms of America and we should all be very thankful for those freedoms.

In other news, we are thankful for the process taking place to create a Joint Economic Development District (JEDD). Anybody that is interested in what the JEDD is, the information will be posted on our website after everything is approved. But this is a new benefit to our village as well as the Township of Sagamore Hills. This is the start of a strong relationship that we will be building with our neighboring community. Walton Hills is about building relationships, nurturing the freedoms of America and serving our residents, and that is what we will continue to do. We are a transparent and accountable government that will always keep the best interest of its residents in mind at all times. Everyone enjoy your 4th of July and God Bless America!

Sincerely serving you,

*Kevin Hurst*

Mayor/Safety and Economic Director, **I.G.I.T.**

Resident Ryan Taylor (right) and Nick Liszka (left) from St. Barnabas Venture Crew 575 hold the American flag. Standing behind the flag are Congressman David Joyce, Mayor Hurst, and Councilpersons Brenner-Miller, Kolograf, Linville and Terlosky. Several residents also took advantage of the opportunity to show their patriotism.

## July Environmental Message Independence from Chemicals

- Learn to identify good and bad bugs. Many beneficial insects visit yards and should be left alone. Beneficial bugs feed on common pests. Find a strategy to foster healthy, balanced garden ecology.
- Purchase a garden insect guide.
- Control pests with natural oils like neem and garlic. Only use neem oil when necessary; it is a natural broad spectrum insecticide that kills beneficial insects too.
- Sharp mower blades = Happy grass blades! By mid-summer mower blades have dulled; this causes stress to the lawn.

**DID YOU KNOW?** Adding organic matter to the soil, like compost or compost tea, relieves stress and feeds beneficial soil microbes. University studies have shown that a healthy microbe population will out compete most of the pathogens that cause fungal diseases in the lawn.

# Walton Hills Police Department Information

Kenn Thellmann, Chief of Police / Councilman Denny Linville, Safety Committee Chair

**It is vacation time again! Here is a checklist that you should review a couple of weeks before you leave home.**

1. **Take photographs.** Bet you thought that taking photographs was for during your vacation rather than before you leave. No longer true. Use your cell phone or digital camera to take photos of your passport, the label on all prescription medicine bottles and anything else that you think you might need. Beats carrying around (or losing) lots of paper.
2. **Photocopy your passport.** Even if you have a digital copy of your passport it's worth it to have a paper copy with you as well. That way if you need to leave your passport for some reason you can leave the copy instead of the original.
3. **Turn on your email auto-response.** Do this even if you are planning on checking email. It will relieve you of the pressure to answer quickly and reduce the number of emails you get.
4. **Put the phone number of your airline** in your cell phone speed dial.
5. **Tell your credit card company you are going to be using the card away from home,** so they won't assume the card was stolen and refuse the charge.
6. **Hold all your mail and newspapers** -- unless you want everybody (including burglars) to know you are not home.
7. **Consider having someone keep an eye on your house when you are gone** such as a friend or neighbor. Fill out the House Watch form which is available on the Village website or at the Village Hall.
8. **If have you have a lawn** and are going to be away for long time, arrange to have somebody cut it.
9. **If you've got a spare key hidden** somewhere outside your house, you may want to remove it, unless of course, you've forgotten to take your key on vacation with you.
10. **If you have windows where people can see in** to your house, close the curtain.
11. **If you live in an area where burglary** is a real concern you might want to look into timers so a lamp or two turns on at night -- and off during the day.
12. **Consider some steps to save energy** and money while you are away.
13. **Consider turning off all the water,** but at least turn off the water supply to your washing machines, dishwashers, ice-makers and toilets.
14. **Unplug toasters, computers etc.** If you don't want it to turn on when you're gone, unplug it.
15. **Remove from your wallet** anything you won't want or need when traveling.
16. **Pay all bills** that will be due while you're away.
17. **Give any food that might spoil** while you are away to a friend -- unless of course you are trying to grow the next miracle antibiotic.
18. **Make sure you have not left any wet clothes** in your washing machine or dryer. Exception: See # 17.
19. **Ditto for dirty dishes** in the dishwasher.
20. **Sprinkle a little baking soda** in toilets and down the sink drains to avoid coming home to the stench of stagnant water.
21. **Water your plants.** If you are going to be away for a long time arrange to have them watered periodically.
22. **Take out the garbage.**
23. **Make sure the proper people know how to get in touch with you** if they need to.
24. **If you left your car in an airport parking lot,** write down exactly where you left it so you can find it when you get back.
25. **Arrange for pets** to be taken care of while you're gone.

When you are calling the Village Hall, please call 440.232.7800.

**Please do not call 440.232.1313.**

# PSST! DO YOU LIVE ALONE?

## Councilwoman Gloria Terlosky, Information Committee Chairwoman

This could save you some money and add years to your life. No, this is not a pill, it does not come in a bottle, it comes in a box. The street name for it is KNOX BOX.

The metal Knox Box is positioned on the entrance door of your home. The key for the entrance door is stored inside the LOCKED Knox Box. Walton Hills Dispatch is notified when a resident receives a Knox Box. In addition, a reflective sticker that can be seen from the street to identify the presence of the Knox Box is placed on a door/window of the home to notify emergency responders (police, fire) that a Knox Box is in use. The responders maintain the ONLY key that opens the Knox Box. This is where you save money – by NOT having your door broken down when you call for emergency service. And the added bonus is the time saved entering your home will probably save your life.

**The cost you ask? It's FREE to eligible Walton Hills residents.**

Contact Lisa, the Village Hall receptionist, at 440-232-7800 for rules of eligibility and an application. This is just another benefit of

being a resident of this beautiful village we call home, where we believe that safety to our residents is our first priority.

Secondly, your next call today should be to make an appointment with Carol at 440-786-2964 to start the process of receiving your individual **R.E.S.C.U.E.** unit (which is also free). When the emergency responders enter your home and look on your refrigerator door and retrieve the **R.E.S.C.U.E.** USB unit, they will insert it into their computer. All of the previous information YOU gave them that they will need to help treat you will be right there on your own personalized **R.E.S.C.U.E.** unit! This information includes your medications, doctor information, hospital of choice, and emergency contacts, and it only takes about 20 minutes to compile.

**DON'T WAIT, TIME SAVES LIVES!** Both the Knox Box and **R.E.S.C.U.E.** unit are FREE to ALL qualifying Walton Hills residents no matter what their age. Call today, what do YOU have to lose?

## Thank You Carol James Florist

Our most sincere appreciation is extended to Carol James Florist, located at 451 Broadway Avenue in Bedford, for donating a beautiful floral arrangement for display in the Village Hall lobby every week.

# Fiscal Officer's Report

Vic Nogalo, Fiscal Officer / Don Kolograf, Finance Committee Chairman

*This article was written with the assistance of Joe Maroun, a graduating senior from Walsh Jesuit High School, who spent three weeks with me gaining real world experience in many aspects of finance as part of his "Senior Experience."*

The Ohio Estate Tax was enacted in 1968 to replace the state inheritance tax. The Ohio Estate Tax was a tax levied on the net value of the estate of a deceased person before distribution to their heirs. The tax was paid by the administrator, executor, or any other estate representative in possession of the property subject to tax. The net taxable estate is the market value of that estate at the time of the owner's death. When the net taxable estate was less than \$338,333, there would not have been a taxable amount. If the net taxable estate was over \$338,333 but under \$500,000, then there would have been a 6% tax on the taxable amount. When the amount was over \$500,000, there would have been a \$9,700 payment plus 7% on the taxable amount.

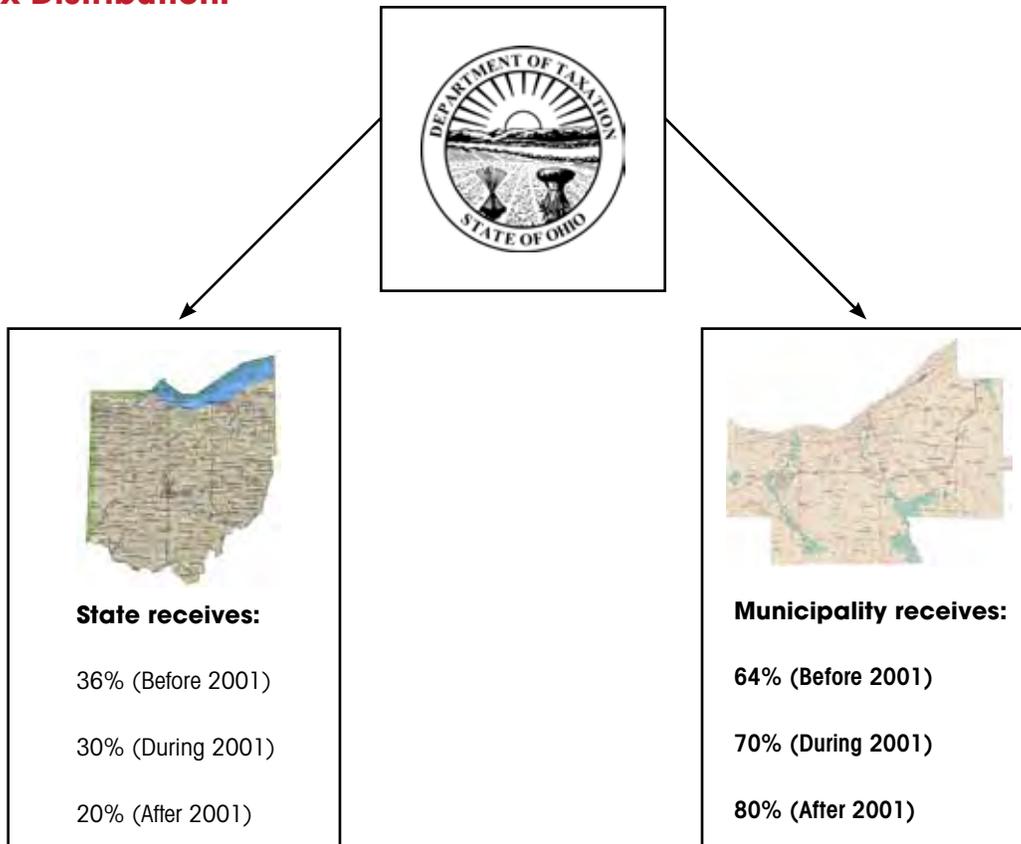

All of the money that was collected by the tax was then redistributed into two different portions. The first portion went to the municipality where the estate originated and the second portion went directly to the state. Estates with deaths before January 1, 2001: 64% of the net taxable estate went to the city or village of

the estate's origin and 36% directly to the state General Revenue Fund (GRF). Estates with deaths on or after January 1, 2001 to December 31, 2001: 70% went to the city or village of origin and 30% to the GRF. Estates with deaths on or after January 1, 2002: 80% went to the city or village of origin and 20% to the GRF.

The Ohio Estate Tax has since been repealed for estates of individuals dying on or after January 1, 2013. We no longer expect to receive any revenues from the estate tax.

*On the next page is a table showing the decline in estate tax revenues for all of Cuyahoga County. Revenues were still being received even as late as 2015 despite the tax having been repealed. This was due to estates being caught up in probate. You will also notice that the decrease in revenue impacted some communities, such as Beachwood or Shaker Heights, much more substantially than Walton Hills.*

## Crystal Greenwell

### One of the many threads in the fabric of our Village

One of the Village's newest residents, Crystal Greenwell, is very excited about living in Walton Hills. She is also very excited about being the next president of the Walton Hills Women's Club. She feels extremely honored that the women in the club have been so accepting and supportive of her. She has a lot of different ideas to run by the members and some new events she wants to plan. So let's get to know Crystal!

Crystal was born in Santa Rosa, California. She moved around a lot with her family while she was young, living in southern California, Pennsylvania, Idaho, and Ohio. She attended New Castle Senior High School in western Pennsylvania and then began her college career at Butler Community College later transferring to The Ohio State University to study sculpture.

Crystal met her husband Gary in 2011 while she was working as a bartender at a pub in Columbus. He repeatedly asked her out, and she kept telling him that she didn't date her customers. Her cousin in Argentina found her a summer job as a bartender in a pub where everyone spoke English, so she bought a plane ticket and prepared to travel to Argentina. However, two days before she was about to leave a volcano erupted in Chile and the heavy ash that fell grounded all flights into the region for the next two months. She remained in Columbus and fell back on the business she had in college – candle making. Remembering that Gary worked in IT, she called him for help while building her candle website. He agreed to help her if she would go out with him. She agreed, and their relationship took off from there. Four years later – on April 25, 2015 – she and Gary were married at a private vineyard in Napa Valley, California. On an interesting side note, the volcano that erupted years earlier that prevented her from going to Argentina and was partially responsible for bringing her

and Gary together erupted again the night before they were married! They are blessed with their son Gary III who they call "Tripp" (for triple, because he is the third Gary in the family).

What brought Crystal and Gary to Walton Hills? The home of Gary's grandmother on Morningside Drive – longtime resident Mary Jane Greenwell – was being rented out and was seriously damaged due to an electrical fire. Crystal's family invested in run down houses, so she was very intrigued to see the house. When she did, she imagined that it would be perfect for her family once it was fixed up. She didn't want to raise her son in a big city like Columbus; she wanted more room for Tripp to run around. As soon as Gary agreed to buy the house, Crystal researched Walton Hills on the internet and started reading about the Women's Club, T.G. Young Park, and the Lake and she fell in love with the community. With lots of help from her father-in-law, Crystal and Gary rebuilt the house and moved in the day after Christmas last year.

Crystal is very interested in the arts. She used to sculpt utilizing mediums such as wood, clay, metal and found objects. She often would look at interesting architecture and try to mimic what she saw. However, sculpting is expensive and time consuming

and requires a lot of space. She now enjoys oil painting; she paints mostly landscapes and nature scenes. She is an avid admirer of Salvador Dali's work and appreciates his intricate use of color. She is also very handy – she built a teepee in her art studio as a play area for her son. She enjoys the theater and would enjoy getting involved in a local theater production. In addition, Crystal would love to start her own interior design business one day, open a soup kitchen, and own a boutique. She loves to cook; Asian fusion dishes and soups are her specialty.

Crystal feels that being the president of the Women's Club will provide her with a wonderful platform to get to know and become involved in the community. She is very glad that Walton Hills is so accepting of new residents and having their voices heard. She feels that it is important to make a difference, and would love to run for Council one day.

Crystal is looking forward to spending time with her family at the Walton Hills Lake this summer, and is looking forward to meeting new people and making new friends. She wants everyone to know that her house is always warm and welcoming. Her door is always open, so stop by to chat with her and have a cup of coffee!
