2024 Medicare Income-Related Monthly Adjustment Amounts

Kathleen Kapusta, LISW Social Worker (216) 538-0616

Since 2011, a beneficiary's Part D monthly premium has been based upon his or her income. These income-related monthly adjustment amounts affect roughly 8 percent of people with Medicare Part D. These individuals will pay the income-related monthly adjustment amount in addition to their Part D premium. Part D premiums vary from plan to plan and roughly two-thirds are paid directly to the plan, with the remaining deducted from Social Security benefit checks. The Part D income-related monthly adjustment amounts are all deducted from Social Security benefit checks. The 2024 Part D income-related monthly adjustment amounts for high-income beneficiaries are shown in the following table:

Beneficiaries who file individual tax returns with modified adjusted gross income:	Beneficiaries who file joint tax returns with modified adjusted gross income:	Income-related monthly adjustment amount
Less than or equal to \$103,000	Less than or equal to \$206,000	\$0.00
Greater than \$97,000 and less than or equal to \$129,000	Greater than \$194,000 and less than or equal to \$258,000	\$12.90
Greater than \$129,000 and less than or equal to \$161,000	Greater than \$258,000 and less than or equal to \$322,000	\$33.30
Greater than \$161,000 and less than or equal to \$193,000	Greater than \$322,000 and less than or equal to \$386,000	\$53.80
